

WINDSOR UTILITIES COMMISSION ANNOUNCES WATER RATES BEGINNING JANUARY 1, 2024

At Windsor Utilities Commission, our mission is to deliver to our customers the reliable and cost-effective water solutions that are essential to life. To ensure that we protect our fresh water delivery service, we continue to invest in our water production and distribution systems.

The 2024 rates have been established to support a water system that meets provincial water quality standards and protects our supply of safe, reliable drinking water while ensuring abundant flow to fight fires and minimize water main breaks.

Maintaining our aging water infrastructure will require an investment of approximately \$43.8 million in 2024. Accordingly, the water consumption charge will increase by 2.8¢ per cubic metre, effective January 1, 2024 (from 72.5¢ cents to 75.3¢.) The fixed monthly charge will increase 77.0¢ (from \$20.29 to \$21.06) for a 15mm meter. For further information, visit www.enwin.com and click on the WUC logo.
