

NOTICE OF STUDY COMPLETION
ELEVATED WATER TOWER
MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT

THE STUDY

ENWIN Utilities Ltd. (ENWIN) on behalf of the Windsor Utilities Commission (WUC) undertook a Schedule 'B' Municipal Class Environmental Assessment (Class EA) for a new Elevated Water Tower and associated distribution and transmission system. The study followed the planning process outlined in the Municipal Class Environmental Assessment (2000, as amended in 2007, 2011, 2023) under the *Ontario Environmental Assessment Act* to determine a long-term solution to maintain adequate water supply and operating pressure to the City of Windsor, Town of Tecumseh, and Town of LaSalle. This study satisfied Phases 1 and 2 of the Class EA process including: (Phase 1) review of background information and definition of a problem statement and (Phase 2) identification and evaluation of alternative solutions.

The Project File Report documents the planning and decision making of this Class EA. The Project File Report has been completed and is being placed on public record for a 30-day review period. The report is available for review online on ENWIN's website, <https://ENWIN.com/water/windsor-utilities-commission>

Interested persons may provide written comments to our project team by April 13, 2026. All comments and concerns should be sent directly to one of the contacts below:
